Response to Request for Reconsideration

This is in response to a request for reconsideration file November 5th, 2002 in regard to a restriction action mail on July 29th, 2002. Claims 2-7, 10-13 and 17-18 are being reconsidered in this action.

Election/Restrictions

Upon reviewing the disclosure and the restriction requirement, examiner asserted that is not an undue burden on the examiner to examine all the claims. Therefore the restriction have been withdrawn.

Claim Rejections - 35 USC § 101

1. 35 U.S.C. 101 reads as follows:

Whoever invents or discovers any new and useful process, machine, manufacture, or composition of matter, or any new and useful improvement thereof, may obtain a patent therefor, subject to the conditions and requirements of this title.

Claims 2-4, 17 and 18 rejected under 35 U.S.C. 101 because the claimed invention is directed to non-statutory subject matter.

The basis of this rejection is set forth in a two prong test of:

- (1) whether the invention is within the technological arts; and
- (2) whether the invention produces a useful, concrete and tangible result.

For a claimed to be statutory, the claimed invention must be within the technological arts. Mere ideas in the abstract (i.e., abstract idea law of nature, natural phenomena) that do not apply, involve, use, or advance the technological arts fail to promote the “progress of science and the useful arts” and therefore are found to be non-statutory subject matter. For a method claim to

Art Unit: 3621

pass the muster, the recited method must somehow apply, involve, use, or advance the technological arts.

In the present case the inventive concept in claim 1 only recites an abstract idea. The recited steps merely consumer request a specified document etc. do not apply, involve, use or advance the technological arts since all the steps can be performed in the mind of the user or by use of pencil and paper and no specific technology (e.g. computer, processor) is expressly recited in the body of the claims. *In re Toma* (CCPA 197 USPQ 852 (1978)).

Although the recited method produces a useful, concrete and tangible result, since the claimed invention, as a whole, it not within the technological arts as explained above, claim 1 deemed to be directed to non-statutory subject matter.

Double Patenting

2. The nonstatutory double patenting rejection is based on a judicially created doctrine grounded in public policy (a policy reflected in the statute) so as to prevent the unjustified or improper timewise extension of the "right to exclude" granted by a patent and to prevent possible harassment by multiple assignees. See *In re Goodman*, 11 F.3d 1046, 29 USPQ2d 2010 (Fed. Cir. 1993); *In re Longi*, 759 F.2d 887, 225 USPQ 645 (Fed. Cir. 1985); *In re Van Ornum*, 686 F.2d 937, 214 USPQ 761 (CCPA 1982); *In re Vogel*, 422 F.2d 438, 164 USPQ 619 (CCPA 1970); and, *In re Thorington*, 418 F.2d 528, 163 USPQ 644 (CCPA 1969).

A timely filed terminal disclaimer in compliance with 37 CFR 1.321(c) may be used to overcome an actual or provisional rejection based on a nonstatutory double patenting ground provided the conflicting application or patent is shown to be commonly owned with this application. See 37 CFR 1.130(b).

Effective January 1, 1994, a registered attorney or agent of record may sign a terminal disclaimer. A terminal disclaimer signed by the assignee must fully comply with 37 CFR 3.73(b).

3. Claims 2, 4-7, 10-13, 17 and 18 are rejected under the judicially created doctrine of double patenting over claims 1-9 of U. S. Patent No. 6,446,051. Although the conflicting claims

Art Unit: 3621

are not identical, they are not patentably distinct from each other because the only added limitation is the third portion and the fourth portion of the key and a mediator that gets involve in the process just in case the owner failed to provide the second portion of the key to the consumer in response to receiving the payment. Therefore, it would have been obvious to one of ordinary skill in the art at the time the invention was made to include the inventive concept of a third portion and the fourth portion of the key and a mediator that gets involve in the process just in case the owner failed to provide the second portion of the key to the consumer in response to receiving the payment because this would have increased security of the system and also facilitate dispute resolution between the owner and the consumer..

Conclusion

Any inquiry concerning this communication or earlier communications from the examiner should be directed to Firmin Backer whose telephone number is (703) 305-0624. The examiner can normally be reached on Mon-Thu 8:30-6:00.

If attempts to reach the examiner by telephone are unsuccessful, the examiner's supervisor, James Trammell can be reached on (703) 305-9768. The fax phone numbers for the organization where this application or proceeding is assigned are (703) 305-7687 for regular communications and (703) 305-7687 for After Final communications.

Any inquiry of a general nature or relating to the status of this application or proceeding should be directed to the receptionist whose telephone number is (703) 308-1113.
